

Compensation Potential Examples

Example 1:

CBA Joe produces \$10,000 in monthly order deposits (Commission Value - CV) and is paid 50% or \$5,000 in commissions which equates to \$60,000 per year in income.

Example 2:

CBA Joe produces \$10,000 in monthly order secondary payments and is paid 30% or \$3,000 in monthly commissions which equates to \$36,000 per year in income. Example 1 added to Example 2 would equate to \$96,000 per year.

Example 3:

CBA Joe recruits, trains and manages CBA Diana who produces \$10,000 in monthly order secondary payments. Diana would earn the 30% monthly while Joe would earn 20% or \$2,000 in monthly commissions which equates to an additional \$24,000 per year in income for Joe.

Example 4:

In a part time manner, CBA Bill produces \$4,000 in monthly order deposits (Commission Value - CV) and is paid 50% or \$2,000 in commissions which equates to \$24,000 per year in part time income.
